

YOUR TRUSTED PARTNER  
**FOR SPECIALITY  
CHEMICALS**

### Company Overview

Vasudev Chemo Pharma is a well-established Indian chemical manufacturer based in Ankleshwar, Gujarat. They specialize in high-grade industrial, specialty, and pharmaceutical-intermediate chemicals, such as MEA Triazine 78%, P-Toluene Sulphonic Acid and Sodium Cumene Sulphonate. Their in-house R&D chemists and engineers provide custom formulations and global supply-chain support, making them a reliable partner for domestic and export-oriented chemical needs.

### Vision

To be a globally trusted leader in chemical manufacturing, delivering innovative, sustainable, and high-quality solutions that enhance industry performance and promote environmental responsibility worldwide.

### Mission

To produce premium-quality chemicals through innovation, technology, and ethical practices while ensuring customer satisfaction, safety, and sustainability across global markets and industrial applications.

### Our Values

1. Quality Excellence– Uncompromising focus on product consistency and performance.
2. Integrity– Conducting business with honesty and transparency.
3. Innovation– Driving growth through continuous improvement and R&D.
4. Sustainability– Prioritizing eco-friendly processes and responsible resource use.
5. Customer Commitment– Building trust through reliability, responsiveness, and superior service.

## Why Choose Us

### Superior Quality Products

Every batch is manufactured under strict ISO standards to ensure unmatched purity and consistency.

### Customized Solutions

Tailor-made formulations designed to match specific industrial and performance requirements.

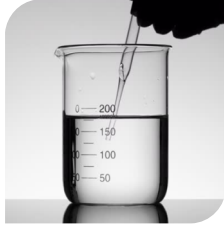

### Global Export Expertise

Proven experience in international trade with efficient logistics and documentation support.

### Customer-Centric Approach

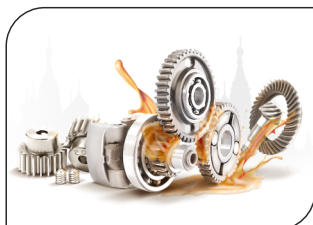

Dedicated technical and commercial support ensuring long-term partnerships and satisfaction.

# Expertise in MEA Triazine

Sr.No.	Test Parameters	Specifications
1.	Appearance	Clear liquid
2.	Color	Colorless to pale yellow
3.	Odour	Characteristic
4.	pH	10.0 – 12.0
5.	Specific gravity at 25 ± 2 °C	1.100 – 1.150
6.	Solubility in DW	Soluble
7.	Assay (as % S-Triazine ) (%)	78 -80

## Application of Our MEA Triazine

## Industry Where We Served

Oil & Gas Industry

Refineries

Wastewater Treatment

Storage & Transportation

Drilling & Exploration

Power Generation

Biogas Plants

Chemical Manufacturing

Marine & Offshore Platforms

Petrochemical Plants

## Industrial Chemicals

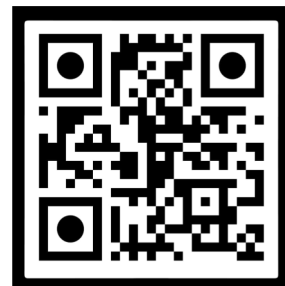

- MEA Triazine 78% H<sub>2</sub>S Scavenger
- MMA Triazine
- Bronopol
- Sodium Dimethyl Dithio Carbamate 40%
- Manganese Sulphate
- P-toluenesulfonic Acid

## Api (Bulk Drug)

- Albendazol
- Ketoconazole
- Pregabalin

## API Intermediates

- 2-Amino-5-methylthiazole
- 2-Chloroethylamine Hydrochloride
- Bis(2-chloroethyl)amine Hydrochloride
- Di Ethyl Amino Ethyl Chloride Hydrochloride
